MBA in eGovernance

The MBA in eGovernance postgraduate degree program combines the very best of a general MBA with further specialist knowledge in the area of IT-enabled public sector service design, delivery and management.

Conducted by a panel of experts drawn from the academia, industry, and public sector, the program aims to integrate best practices in management, advanced business processes, and modern public sector services to a professional who envisages leading eGovernance activities of public sector organizations.

This postgraduate qualification is designed to produce top-notch ICT specialists and eGovernance project managers required by the fast-modernizing public-sector organizations and services in Sri Lanka.
